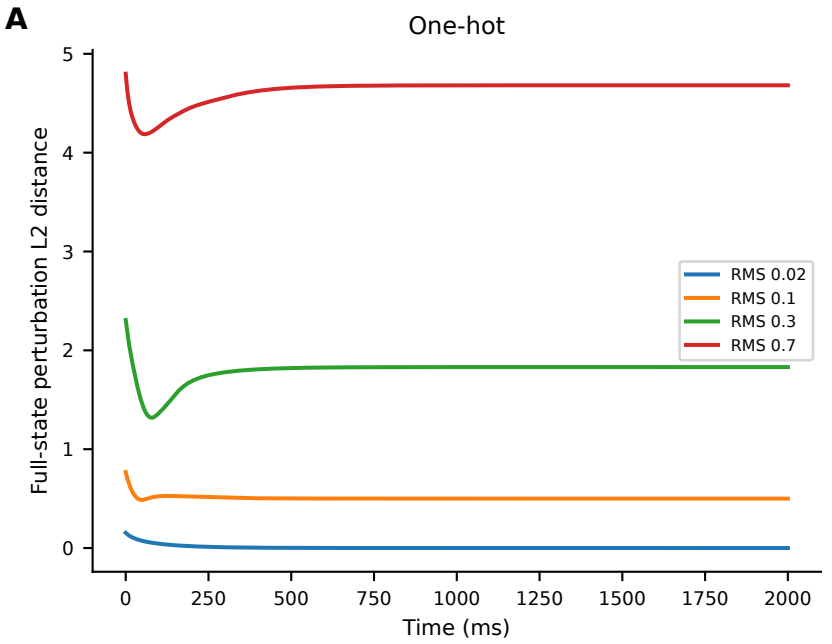
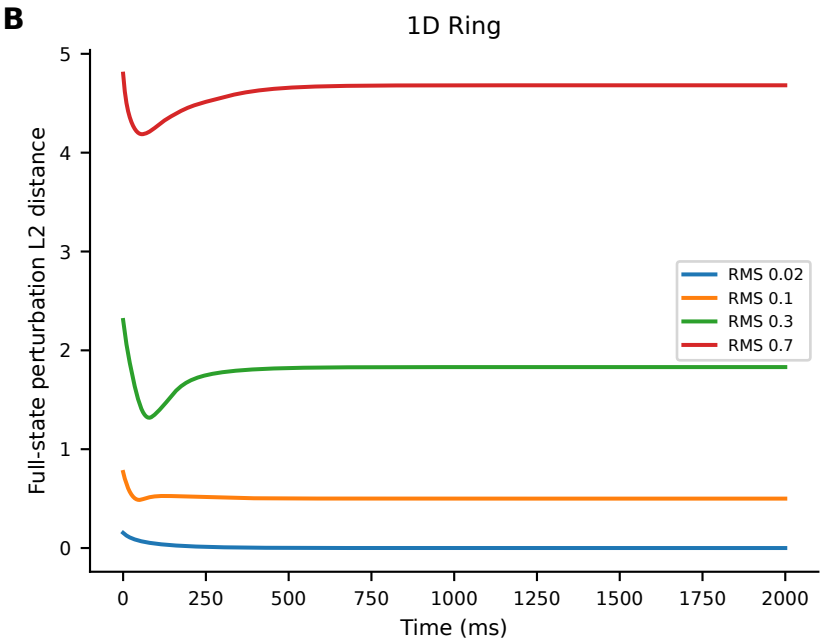
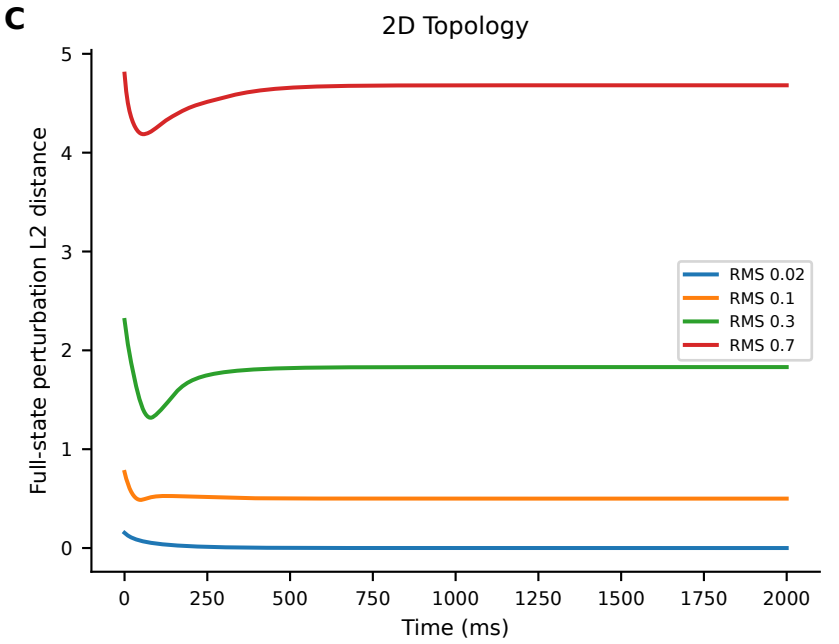
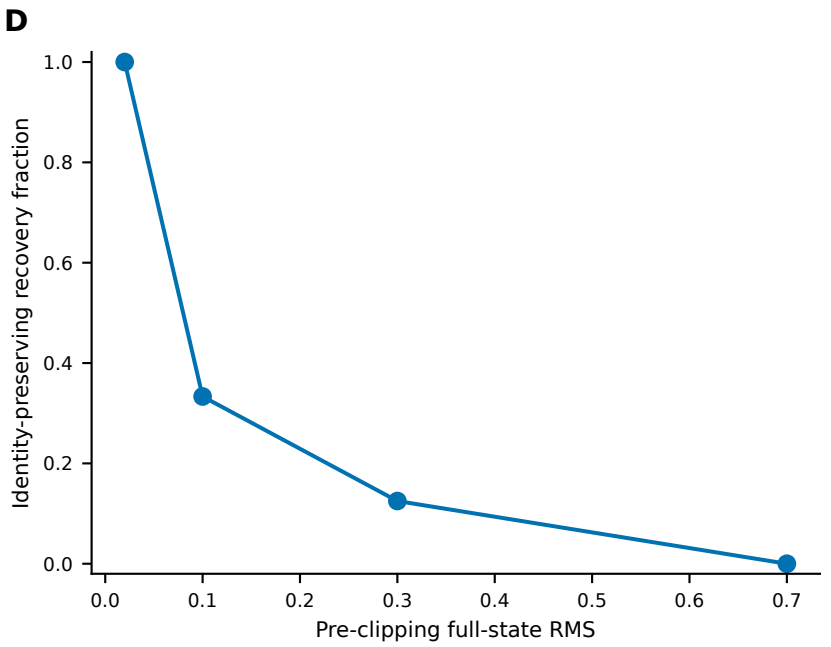
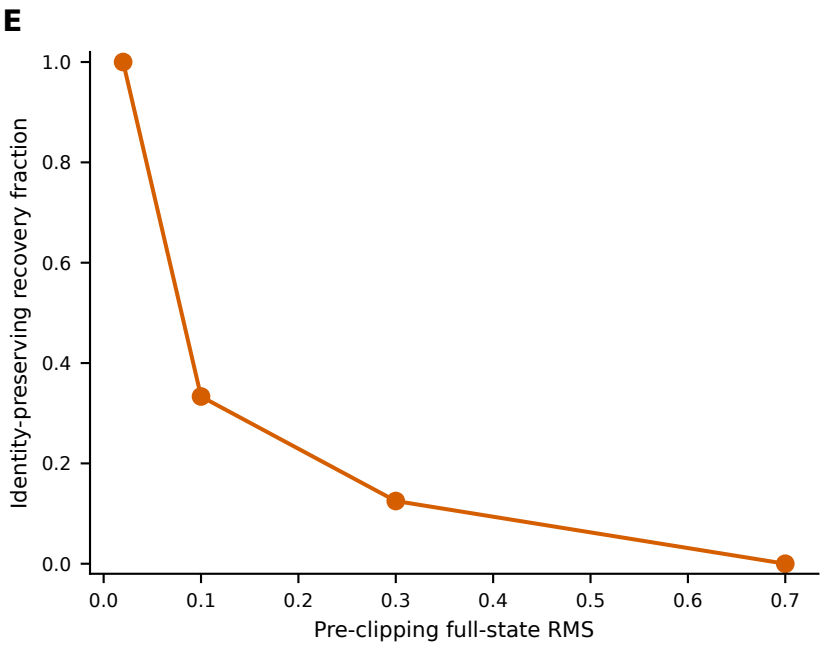
Figure 10 | dynamics comparison: same definitions; no best-model score

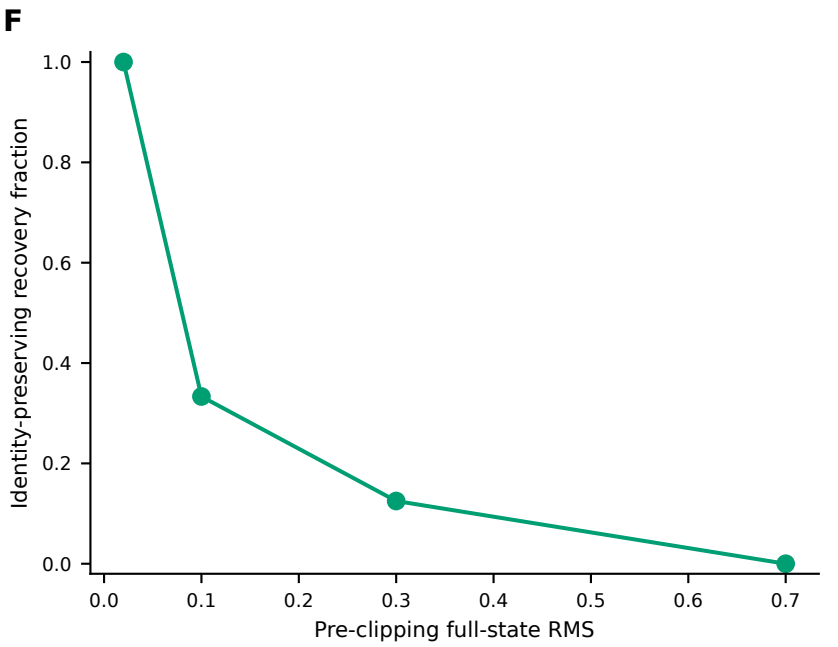












G

Evidence classification

Locally stable fixed points under constant tonic background

Finite, narrow tested recovery basin

6 discrete positions, fixed D/S sample
No continuous ring attractor evidence
No global basin proof

H

Evidence classification

Locally stable fixed points under constant tonic background

Finite, narrow tested recovery basin

6 discrete positions, fixed D/S sample
No continuous ring attractor evidence
No global basin proof

I

Evidence classification

Locally stable fixed points under constant tonic background

Finite, narrow tested recovery basin

6 discrete positions, fixed D/S sample
No continuous ring attractor evidence
No global basin proof
